The News.

The steamship *Vanderbilt*, with dates from Havre to the morning of the 9th inst., arrived off Cape Race yesterday morning, delivering her news to the yacht of the Associated Press, in *seven days and ten hours* from Southampton. Her news was placed on the wires in less than *seven days and twenty hours*, which is quicker by twenty-four hours than news has ever been received before. The details of the news are of considerable interest. Another fearful outbreak of Mt. Vesuvius had taken place, by which many lives and much property was destroyed. We have also later advices from India; a terrible battle with the rebels had occurred, and four hundred of the latter left dead on the field. The British forces were generally successful in their encounters with the rebels. We also have later news from China. Political news not particularly important. Affairs between France and Spain begin to look complicated. An insurrection in the Island of Candia is said to be spreading.—The French Editor, M. DE PENE, who had been seriously wounded in the double duel, of which we have before given an account, is in a fair way of recovery.

The anniversary of the battle of Bunker Hill, was observed in Boston, Charlestown, and Chelsea, Mass.

From Washington we have the confirmation of the Senate, on the 16th, of a batch of federal appointments.

It is reported that the Exchange Bank at Griffin, Georgia, has failed.

By the *Vanderbilt's* news, we learn that flour and wheat, in the Liverpool market, were dull, the latter at a slight decline.

The New York produce market was not so active yesterday, and prices of flour lower, and of wheat not so firm. In our own market there was a brisk demand for wheat, at full previous quotations. We had genuine Summer weather yesterday, the warmest day this season.

The Editorial Convention.

The Convention of the Editors and Publishers of this State, which met at Madison on Wednesday last, adjourned the same afternoon till the first Wednesday in October next. The Convention was numerously attended and its proceedings were entirely harmonious. A full report of what was done and said at this assemblage is unavoidably deferred until our next.

The Flood at Cairo—Immense Loss of Property.

A correspondent of the Chicago *Times*, writing from Cairo, on Sunday, gives a thrilling account of the flood which has probably nearly destroyed that city:

Yesterday morning a distinct shock of an earthquake was felt here and at 6 o'clock in the evening the "cross levee" broke, when the water, which was twelve or fifteen feet above the town, *outside*, came dashing, foaming and seething *inside*. The break was so unexpected, that the inhabitants were taken by surprise, and many of them only had time to escape, with their families, to the levees, before the torrent swept away their homes. In many instances boats and rafts had to be resorted to for the means of escape.

Breakfast was served to the guests of the Taylor House in the second story, knee-deep in water, the culinary department being carried to the third! A few families, who resided in two-story houses, remained in them until noon today. They now get out of their up-stairs windows into boats—the water being almost on a level with them, and rising at the rate of four inches an hour.

The Ohio levee is the only place of refuge left, it being only some seventy five feet wide, and three fourths of a mile in length; and here a "mixed" sight is presented to the beholder—every animate and inanimate thing saved from the destroying element is seen.

At one o'clock, P. M., nearly one-half of the new unfinished hotel, on the levee, fell with a deafening crash, preceded by a report equal to a six-pounder. The building was of brick, five stories high, and cost nearly $100,000. The remaining portion was considerably swayed.—Total loss.

Gov. Matteson's new bank building, five stories high, also on the levee, shows signs of falling. It is an unfinished building and cost about $75,000.

The "Springfield Block," adjoining the bank, still stands firm, but will probably come down with a crash soon, as the water is softening the ground, at the foundation. Nine tenements are within this building, all occupied. The post office is in one of them. Cost some $300,000 or $400,000.

A further rise or two or three feet will sweep silently over the site where Cairo once stood, but where it will never stand again, forever!

A rumor is current that the levee was cut by a person living in Mound City, as he was seen in the neighborhood of the break a very short time after the water commenced running in.

The railroad track has been washed away north of the town, with considerable of the trestle work. Passengers on the I. C. R. R. are transferred to the Mound City train at the junction, at which place they take the packet for this place.

Some three miles north, the Mississippi sweeps across to the Ohio river, with a strong current, which places this ill-fated town on an island in fact.

Mound City being on an elevation, has fared some better than her sister town; but even there a great portion of the place is submerged.

Every boat that leaves here carries a portion of the unfortunate inhabitants away from their now desolate homes. Many of the business men are made bankrupt by the flood.

A REMUNERATIVE MYSTERY.—The Cincinnati *Enquirer* gives an account of a merchant of that city, who went east, to settle his accounts, and received his balance in gold, some $15,000 of which he put into his trunk. On his way home he took Washington in his route, and put up at a hotel, leaving his trunk in his room. Here he fell in with a capital lot of fellows, got on a spree which lasted until his trunk and his gold were missing. Returning home a sad and wiser man, he put up at a hotel in Cincinnati, and was presented with a bill from the Express Company for charges on an old trunk for $18, which he at first refused to pay, but on examining the trunk, he found not only his wardrobe but his money all right. He is unable to arrive at any satisfactory solution of the mystery.

ANOTHER CAMPHENE HOMICIDE.—Miss Adelaide Holly, daughter of Ex-Gov. Holly, of Connecticut, died at Stamford, in that State, on Thursday last, from burns from a fluid gas lamp. She was reading by the lamp, *which stood undisturbed on the table at the time of the explosion*. An elder sister was also badly burned.

WALKER FILIBUSTERING AGAIN.—It is said that Walker, the filibuster, is certainly preparing a third expedition against Nicaragua. His followers in the south make no secret of the matter, and the Administration has received official information of the fact from the head-quarters of the movement.

From the Albany Evening Journal.

A Revolutionary Relic.

One of the most valuable and interesting relics of the Revolution is in possession of John P. Putnam, Esq., of White Creek, Washington Co. We allude to the brace of pistols belonging to his grand-father, Israel Putnam, the Revolutionary hero. Their history is remarkable. They originally belonged to Maj. Pitcairn, of the British Army, who commanded the expedition to Concord and Lexington. It was at the latter place as everybody remembers, that Pitcairn drew them from his holsters with the insolent words, "Throw down your arms, ye rebels, and disperse," and fired upon the militiamen, the first shot of the Revolution. In the subsequent retreat to Boston, while his command was harassed by the American "sharp shooters," Major Pitcairn's horse was shot under him, and left on the road. The saddle and pistols of course fell into the hands of the rebels, and were carried to Gen. Putnam, who was then in command of the American forces. They were used by him during the war, were borne on his coffin, at his funeral, and were handed down, a family heirloom to his son and grandson. They are wholly of metal, steel, and silver mounted—and of elaborate workmanship.

Mr. Putnam has them preserved in a mahogany case, accompanied with a certificate in the hand-writing of Aaron Burr, that they were the pistols used by Gen. Putnam, while in active service. Another certificate from a soldier named Monroe, who was present when they were taken from Pitcairn's horse, places their genuineness beyond a doubt.

Mr. Putnam, who was in the city a day or two since, says that he remembers the pistols in the possession of his family sixty-three years—a period longer than his hale and erect appearance would lead one to suppose he had lived

☞ The people of Tennessee will be called upon to vote, on the first Thursday in September next, upon the question of calling a Convention "to revise, alter or amend the Constitution of the State."

FOUND.—The bodies of Rebecca C. Stout and the two Misses Stowell, three of the four young ladies drowned on Lake Pepin, while on an excursion from Maiden Rock, have been found.—Another is yet to be found.

☞ The damage to plantations by the flood in the Mississippi is estimated at $30,000,000.

☞ **LET EVERY BUSINESS MAN REMEMBER, that the DAILY SENTINEL has MORE THAN DOUBLE the Circulation of any other Paper in Milwaukee, and is, therefore, the CHEAPEST AND BEST ADVERTISING MEDIUM in the City.**

THE DISASTER OF WEDNESDAY.—We paid a visit yesterday to the ruins of CORDES' Store on Detroit Street. A crowd of men were still at work, getting out the goods from the rubbish.—Detroit Street is completely blocked up, and Engine Co., No. 4 were on the ground all day keeping watch. A temporary shanty has been put up in the middle of the street, to protect the goods as they are taken from the ruins. A large amount has been carried away and stored in other buildings. The damage upon the goods is variously estimated at from $10,000 to $15,000.

The building is a total loss, it being completely razed to the ground, and the timbers all smashed to atoms. Various causes are assigned for the occurrence of the accident. A number of our most experienced masons, made an examination of the mason and brick work and they pronounce it as having been *well done*.—The mortar, they say, is as good as that used for all ordinary building purposes, and the walls were thick and substantial. It is the general impression that the fault lay in the timer work. The gentlemen who examined the ruins of the building, yesterday, are H. L. PALMER, HIRAM BOND, and STODDARD H. MARTIN. We have also spoken with several other builders in the city, upon the subject—well known men, who are of the same opinion.

The pillars in the cellar which supported the joists in the center of the building, are said to have not been sufficiently strong for the great weight which they had to bear. They had begun to split the day before, and preparations were being made the day the building fell for strengthening them. Much of the heaviest timber was also old and rotten, and quite unfit for any use but firewood. One large beam which had been broken in several places, we noticed was quite rotten, and bored almost to the center with little worm holes. The smaller timbers, too, which were used in the construction of the building, were also of an inferior quality. This, anybody can see, was the main cause of the accident, although some continue to assert that the fault lay in the mason work.

It is almost a miracle that more lives than have been, were not lost by the accident, and it should be a warning to all men putting up new buildings, to use none but the best materials.—The clerk REMOND WEISKIRK, who was so badly crushed, is in a very critical condition, and it is thought he can scarcely survive another day, his spine being severely injured. The other two who were injured, HENRY TRINER, and LOUIS WEISKIRK, are doing well. The others who were in the store at the time, sustained little or no injury. The funeral of Mr. CHAS. EWE, the second partner, took place yesterday. He was a fine man, and was respected by all who knew him. His death will be an awful blow to his wife, when she hears of it. We learn that she was in a very delicate state of health and it was not thought prudent to communicate it to her.—This is the saddest part of the whole affair.

The name of the young man, who jumped from the window while the building was falling, was JAMES SCOLLAN, instead of SCOFFIN, as reported.

The firm of CORDES, EWE, and WEISKIRK, was amongst the heaviest wholesale grocery establishments in our city, and they were all considered upright business men. Mr. CORDES will immediately commence, we learn, the erection of a new building. In the meantime his stock of goods will be transferred to one of the stores in Jubusch Block.

☞ Mr. SIMMS, the proprietor of the steam tug *G. H. Notter*, expresses to the firemen of Milwaukee, his sincere thanks for their prompt and effective aid in subduing the flames, as they were rapidly destroying his boat, on the morning of the 15th inst. Mr. SIMMS was once a fireman, and knows how to appreciate their goodly services, as well does he know the poor reward they generally receive.

WHERE OUR MILK COMES FROM.—A large portion of the milk used by our citizens, comes from the neighborhood of Waukesha. The Waukesha *Democrat* says that the milk sent from Waukesha is forwarded by good, substantial, and reliable farmers; men who take commendable pride in having everything they send to market, right—just right. They send the best milk, fresh from cows that wallow in sweet fields of clover and herd-grass. And their customers in Milwaukee can rely upon the quality with as much confidence as if they had just milked an equal quantity from their own cow.

The *Democrat* gives the names of the principal dealers who send milk to this city, and also the quantity:

JAMES DAVIS sends in each day, by railroad, sixty-four gallons; MANVILLE BARBER sends daily, sixty-four gallons; J. L. SMITH sends daily, thirty-two gallons, and Dr. KENDRICK sends daily, thirty two gallons.

And adds:

"We know all these gentlemen, and they are men who will always deal uprightly and justly."

Those of our people who take the Waukesha milk from reliable men, may believe that they get a pure article. As for the matter of "swill milk," we think no fears need be entertained of getting any of the vile stuff, for good natural food for cattle is too plenty in this State to make the swill business profitable.

Mr. DANIEL MILLER, a well known and reliable man, is the principal vender of the Waukesha milk in this city, and those who get their supply of him may depend upon being supplied with a pure and sweet article.

NATIONAL THEATRE.—The beautiful play of *Ingomar, the Barbarian*, was well rendered at the National Theatre last night. Mr. HANCHETT made a perfect Barbarian, and Miss ERVING, as *Parthenia*, did much credit to herself. She is a fine actress and renders every character she personates with spirit. The great attraction of the Vieuxtemps' concert, last night, of course precluded the idea of a good house at the theatre.—This evening, the charming Miss HENRIETTA ERVING takes her benefit, and an extremely interesting bill is offered for the occasion. The principal play for the evening will be Judge Conrad's popular tragedy of *"Jack Cade;"* Mr. HANCHETT as *Jack Cade*, and Miss ERVING as *Marianne*; to conclude with the comedy entitled *"Perfection."* This will be one of the best dramatic entertainments ever given in our city, and we trust the fair "star of the evening" will have a substantial benefit.

To-morrow evening Mr. HANCHETT takes a benefit; Schiller's beautiful tragedy of the *Robbers* is on the programme for that occasion.

THE NEWS DEPOT.—By the following it will be seen that McSORLEY & SIGERSON, of the News Depot, have disolved partnership, SIGERSON buying out the interest of McSORLEY, and carrying on the business:

DISSOLUTION NOTICE.—The copartnership heretofore existing between the undersigned, FELIX McSORLEY, and JOHN SIGERSON, has been this day dissolved by mutual consent; the business will be conducted as heretofore, at the old stand, No. 309, East Water street, Milwaukee, by

JOHN SIGERSON.

Milwaukee, June 16, 1858.

SIGERSON furnishes us daily with the eastern papers in advance of the mail, for which he has our thanks. He keeps all the popular periodicals and newspapers of the day, and always has them in good season. His enterprise is deserving of success.

ERRORS.—The *Free Democrat* of last evening quotes Rye at 57 cents per bushel. The highest price which we heard of being obtained for that article yesterday, was 51 cents. It also quotes full wool sheep skins at $1,50, which is 25 cents above the highest market price, according to three of the largest dealers in the city. These mis-quotations may "work a manifest injury to the public." The *Democrat* also has the receipts of the La Crosse road for the 16th, as received yesterday.

HEAVIEST RECEIPTS OF THE SEASON.—Yesterday, twenty-eight thousand two hundred and forty-two bushels of wheat, arrived by the Milwaukee & Mississippi R. R., the largest receipts for any day this season. The total receipts of wheat yesterday, will foot up about fifty thousand bushels. The farmers appear to be rushing in their grain, and it is all selling readily at good prices.

FUNERAL OF CHARLES EWE.—The funeral of CHARLES EWE, Esq., partner of J. H. CORDES, who was killed by the falling of the store on on Wednesday, took place this afternoon, and was attended by the order of Druids, of which society he was a highly respected member.

A GOOD MEMORY.—To-night, Prof. FOWLER lectures in Albany Hall, on Intellectual Culture and Self-Improvement—Memory, how to secure and retain it—How to become good Thinkers, Writers, and Speakers—The Basis of Success in Business, etc. An important and useful Lecture to all, and especially to young men and women. Tickets at the door—only 25 cents. Private examinations, with charts and written descriptions of character, given daily in the ante-room of Albany Hall.

ANTIPHLOGISTIC SALT!—This is the name of a new medical discovery, which is said to be a sovereign balm for most of the diseases to which humanity is subject. It has in a short time gained a wide reputation, and it is now extensively used throughout the country. The advertisement of the Agent, Mr. S. S. WARNER, will be found in another column.

POLICE COURT.—John Ballou, intoxicated and disorderly, was fined $5 and costs. Charles Webber, drunk, fined $3. R. W. Jones, intoxicated, fined $1. John Smith, larceny, fined $10 and costs. John Schatty, also convicted of larceny, was sent to the County jail for 30 days.

ACCIDENT.—Yesterday forenoon a bank of earth caved in over in the Fifth Ward, while a number of men were engaged in grading, and one laborer buried in the earth. He was seriously injured, though not killed.

☞ Ask George W. Bosler, late Supervisor First Ward, of the speedy cure of his daughter, 14 years old, by a single bottle of Prof. De Grath's Electric Oil—Her screams could be heard 200 yards from the house, such was her severe pain, on Sunday; the following Monday she was well and walked about town.

☞ Ask B. T. Haines, coal dealer, &c., Sixth and Fine streets, what he knows of the wonderful Oil. Ask thousands who have been so quickly cured of Rheumatism, Gout, Neuralgia, Piles, Hemorrhage, Burns, Wounds, Sprains, Abscesses, and other painful complaints.

☞ For sale by Bosworth & Sons, and J. H. Teuch Milwaukee; Fahnestock & Davis, and Reed & Co., Chicago; and by Druggists and Merchants generally throughout the country.

☞ A good-looking friend of ours, who is on this side of forty, though somewhat heavy-headed, while absent from the city a few days, used Prof. Wood's Hair Restorative, and on his return called to see his lady-love, but was amused to find she did not recognize him; and immediately determined to pass for a cousin of himself, but was eventually chagrined to find he was supplanting his former self in the affections of the lady, which caused him to make himself known; but the lady still says that she likes the counterfeit better than the original, and insists that he continue, if necessary, to use the Hair Restorative. To be had of the druggists.—*St. Louis Morning Herald.* Sold by all good Druggists.

LATEST NEWS!

BY MAGNETIC TELEGRAPH

Later from Europe—Arrival of the Vanderbilt.

ST. JOHNS, N. F., June 17.

The U. S. mail steamship *Vanderbilt*, Capt Higgins, which left Havre on the morning, and Cowes at 12 minutes past 7 o'clock, on the 9th inst., passed Cape Race at 5 o'clock this morning. She had 195 passengers, and the French and English mails. Her advices from London and Liverpool, are on the day of their sailing.—The *Vanderbilt* was intercepted off Cape Race by the news yacht of the N. Y. association.

The news by this arrival is of a highly interesting nature, embracing important news from India, and accounts of a fearful eruption of Mount Vesuvius, besides other items of moment, which are appended.

The Pacific mail steamship *Persia*, which sailed from New York at 4:30 P. M., on Thursday, the 27th of May, arrived at Liverpool on Sunday, the 6th of June.

A weeks later news had been received in India, via. Alexandria and the telegraph from Malta.

Sir Hugh Rose had met the rebels and defeated them, with great slaughter, no less than four hundred having been left dead on the field.

The rebels were collecting rapidly at Calpee, where they were making another stand against the British.

Nena Sahib seems to have become somewhat alarmed for his own safety, and attempted to escape to Central India; his retreat was however cut off. A regiment of Europeans and Ghoorkas had been repulsed by the rebels in the mountains.

CHINA.—Later advices had been received by telegraph from Malta; they embrace however, nothing of a startling nature. A despatch from Pekin directs the plenipotentiary of the western powers to return to Canton, as the new Imperial Commissioner is gathering his forces to re-capture the city, and was expected to succeed.

The London papers contain interesting articles in reference to the outrages on American vessels in the Gulf of Mexico. The dispatch says nothing of any further proceedings in Parliament in relation thereto, and the presumption is that nothing had occurred. There had been an extraordinary and fearful eruption of Mt. Vesuvius, causing the loss of many lives and a large amount of property.

The French Mediterranean Squadron which the advices by the Europa stated to have sailed from Toulon with sealed orders, had concentrated in the Adriatic. Affairs between France and Spain, look complicated. The French Ambassador had returned to Paris. The reason is not stated. The insurrection in the Island of Candia was increasing in strength. Five other districts of the Island, have risen against the authorities.

M. Depene the editor of *Figaro*, who was wounded in the duel with M. Hyene of the army, was much improved in health. The English papers contain interesting details of the recent experiments made with the Atlantic Cable, of the proposed course of action of the expedition for laying it between Ireland and Newfoundland.

LIVERPOOL MARKETS.—The cotton market opened buoyant but closed quiet at weaker prices, though there was no quotable change; the sales for the three days foot up 22,000 bales, of which speculation 5,000 and exportation 10,000. Breadstuffs quiet with a downward tendency; Richardson, Spence & Co. report flour very dull and quite neglected; Western is quoted at 20s a 21s 6d, being a decline of 1s; Balt. 21s a 21s 6d; Ohio 21s 6d a 23 6d.

Wheat quiet and dull with a slight decline on all sorts of red; the quotations for Southern white 7s a 7s 6d; western 6s a 6s 4d; red 5s 6d a 5s 7d; common dull; white very difficult to sell even at 6d decline; the quotations on white 32s a 33s 6d; yellow 34s 6d a 34s 9d.

Provisions—Beef quiet but steady; pork quiet and firm; bacon firm; lard heavy, 55s being the highest auction bid for prime; tallow dull and quoted nominally at 53s.

Produce—Rosin steady 4s a 4s 2d for common; coffee firm.

Rice heavy; salpetre firm; molasses very active; tallow slow of sale. Money unchanged—Consols for account 95¼a95⅜.

MANCHESTER MARKET.—Quite unsteady.

Capt. Higgins of the *Vanderbilt*, delivered European advices to the news yatcht of the N. Y. Associate Press, off Cape Race in seven days and 10 hours, and the news had been placed upon the wires in less than seven days and twenty hours from Southampton, this is quicker by more than twenty-four hours than European intelligence has ever been received in the U. S., but may be beaten by Capt. Judkins of the *Persia*, who intends to place his news in this city next Saturday, seven days from Liverpool, in season for the evening papers. We shall see.—Should the anticipations of the friends of the Atlantic Telegraph be realized, we shall be able to receive daily and hourly intelligence from all parts of Europe, on and after about Monday week.

Libel Suit.

ALBANY, June 17.

Arch-Bishop Hughes attended here, before the Grand Jury, as an applicant for an indictment against the Albany *Statesman* for a libel contained in certain letters, exposing a society which it claims exists under the name of Jesus. After hearing the Arch-Bishop's testimony the Grand Jury refused to indict, on the grounds that if the matter is libellous against the Arch-Bishop, it should be prosecuted in New York, where he lives, and not at the expense of Albany county. The Arch-Bishop then offered to bear the expense of the prosecution, but the bill was refused by the Grand Jury.

ALBANY, June, 17.

The argument before the Court of Appeals, of the Ruloff murder case, which involves the question as to whether conviction for murder can be had, where the body is not found, was commenced to-day. CHICAGO, June 17, 11 P. M.

"Dan Rice's Great Show" opened here this evening. Mr. Rice was honored by an immense audience, he appeared in person and was warmly received.

O'CONNELL'S FIRST SUCCESS.—At the beginning of his career at the bar O'Connell was retained as counsel in an action between the city of W—— and another party respecting a salmon-weir on the river. The corporation claimed it as belonging to them; their opponents maintained it was an open fishery. Little was known of its history, further than that it was in the neighborhood of an ancient Danish colony. But it had always been known by the name of "the lax-weir," and this formed the chief ground of legal resistance to the city's claim. Able counsel was urging it, while O'Connell who had to reply for the city, was anxiously racking his fertile brain for a reply. But little relief came thence: "Lax," it was urged, meant loose, and loose was the opposite of reserved, or preserved, or guarded, or under any custody of corporation. Nothing could be plainer. A *lax* weir could not be *close* weir (though such reasoning might not apply to corporations or constituencies,) and no weir could have born the title of lax it it had everbeen a close one. At this critical conjuncture some one threw across the table to O'Connell a little screwed up twist of paper, according to the wont of courts of justice. He opened, read it, and nodded grateful thanks.

A change came over his countenance; the well known O'Connell smile, half frolic, half sarcasm, played about his lips, he was quite at his ease, and blandly awaited the conclusion of his antagonist's speech. He rose to reply, with hardly a listener; by degrees the jury was motionless, the lack lustre eye of the Court regained its brightness; the opposing counsel stared in amazement and incredulity, and O'Connel's clients rubbed their hands in delight. What had he done? Merely repeated to the gentlemen of the jury the words of the little twist of paper.—"Are you aware that in Danish *lachs* means salmon?" The reader may imagine with what wit and scorn the question was prepared, with what an air of triumph it was put, and by what confident demolition of all the adversary's *lax* argumentation it was followed. Whether there was then at hand a Danish dictionary, (a German one would have sufficed) or the Judge reserved the point, I know not, but the confutation proved triumphant; O'Connell carried the day, was made a standing counsel of the city of W——, and never after wanted a brief. But he sought in vain, after his speech, for his timely succorer; no one knew who had thrown the note.—*Wiseman's Recollections of the Last Four Popes.*

NEW YORK & ERIE RAILROAD.

THE New York & Erie Railroad Company have earnestly endeavored during the past ten month, to establish and maintain uniform and remunerative rates of traffic by the four great lines which connect the Atlantic cities and the West. Having failed in this, and believing it to be injudicious and improper to influence traffic by the issue of free papers, by the employment of runners and solicitors, or by any other underhand means, the Company, rather than resort to such means, have determined to reduce the fares on and after Monday June 14, as follows:

Dunkirk to New York to..............$6,10

NEW MEDICAL SALT!

The Most Valuable Discovery of the Age!

FOR ONE DISEASE ONLY.

THE undersigned having been appointed General Agent for the sale of Dr. Coggswell's

ANTIPHLOGISTIC SALT!

In Wisconsin, Minnesota, Michigan, Indiana, and Oregon and Washington Territories, (the Agency for Minnesota, Wisconsin and Michigan, having been relinquished to me, by Messrs. J. B. Bryle & Co., of Boonville Mo.,) would respectfully say to the Public and to dealers in particular, throughout the North-West, that he is prepared to furnish the above valuable medicine to all, either by the single box, or in fifty dollar packages, to the trade, on the most liberal terms, on commission.

But a few months since, this wonderful remedy was placed in the hands of an intelligent Public, yet in so short a time nearly thirteen hundred Editors and Publishers, (in the United States, Canadas, British Provinces and England,) have personally tested or witnessed its effect in Inflamitory Diseases, and have pronounced it the most valuable medical discovery of this or any other age. This enlightened tribunal has given the Antiphlogistic Salt an established character.

The following different forms which the unbalanced fluids assume, and many more not here mentioned, that have more or less heat and fever, are as easily cured by it, as fire is extinguished by water.

1. Cases affecting the head and throat, viz: Brain Fever, Fits, Head Ache, Inflamed Eyes, Ears and Nose, Canker, Croup, Neuralgia, Erysipelas, Catarrh, Bronchitis, &c.

2. Cases affecting the chest and abdomen, viz: Inflamed Lungs and Liver, Colic, Pleurisy, Coughs, Dyspepsia, Asthma, Dropsy, Heartburn, Gravel, Piles, Gonorrhea, Venerial Diseases, &c.

3. Cases affecting the extremeties and skins, via: Rheumatism, Gout, Scrofula, Ulcers, Chilblains, Chicken and Small Pox, Salt Rheum, and most other Cutaneous Affections, &c.

This Salt is very efficacious in Fever, Ague, Wounds, Nervous and Spinal affections, and many other forms of Inflamatory Disease, attended with heat, pain, or ferbrile symptoms.

Dr. Coggwell is daily overwhelmed with orders, by mail and express, for his "Salt," and, contrary to his original purpose, will be compelled to establish Agencies in every State in the Union.

Applications for County and Town Agencies are solicited, as I am desirous of placing the Salt for sale in every town in the above mentioned States, as soon as possible. The Medicine will be sent by mail, at $2 per Box, free of charge. S. S. WARNER,

The Cleveland Wool Depot.

Established in the Winter of 1854.

HAS been in operation over four years, during which period, though its progress has been impeded by the adverse years of 1854 and 1857, the practicability of the plan has been clearly demonstrated. That the house affords superior advantages to the Wool Growers of the West, as a medium for passing their wools into the hands of the manufacturer, is now no longer a question. But although a very large number of Wool Growers have availed themselves of these advantages during the last four years, yet, surprising as it may appear to many, our receipts have been larger from Merchants and Wool buyers than from Wool growers, and this may be accounted for mainly from the fact, that, as a class, the wool growers have been more easily influenced and misled than the former, by the statements of a few operators who are wholly opposed to all efforts having for their object the systematizing of the wool trade, or the enhancement of prices to the producer.

The past year, characterized as it has been by the most disastrous financial embarrassments, has been one of the most unfortunate for negotiating and managing sales of wool, and the fact that the enterprise has been remarkably successful, notwithstanding these disadvantages, and given almost universal satisfaction to consignors, should, we think, inspire sufficient confidence to induce large consignments from wool growers.

To those who have been prejudiced by false rumors, and who have manifested a want of confidence, we have frequently made advances equal to the price they have been offered for their wool. Such advances, however, should not be required, as the enterprise was started for their benefit, and this object has been steadily kept in view, and we hope the encouragement will be such as to continue our efforts. Indeed, wool growers, particularly the present year, cannot afford to do without such influence and facilities as this house can extend to them.

This year must be a particularly favorable one for wool growers to test the merits of the wool depot system, and we hazard nothing in assuring those who are disposed to consign to us, that they will avail themselves of better prices than they can obtain by any other method, and would, we trust, become permanent friends of the enterprise. At this house, the Wool is closely classified into different styles and grades, thus rendering it more attractive to the manufacturer, who frequently does not wish to purchase mixed lots. Here he can obtain the particular grade of wool adapted to the quality of goods he manufactures, and can thus afford to pay 3 to 5 per cent a pound more than under the old system of employing agents and sub-agents to canvass the country to procure his stock. Here he can find uniform grades, which are so well known to eastern manufacturers, that the only expense attending their buying is a letter or telegraph dispatch, ordering any particular grade and quantity.

☞ To those who wish to consign wool to us, we will forward sacks, by express and otherwise, numbered and marked so that no other direction would be required to have the wool reach us. Wool Twine for tying up wool, will be sent to those ordering, at manufacturers' prices. To show our confidence in the future Wool Market, we propose to make more liberal Cash Advances than heretofore, if desired. Hoping to receive a more extended patronage from the wool growers and merchants of the west, we promise undivided attention to their interests, and remain very truly, &c.,

MILWAUKEE:
FRIDAY MORNING, JUNE 18.

The Growing Crops in this State—Prospect of our Farmers.

While it is generally believed that the corn crop this year must prove a failure, yet there seems to be little doubt but that a good crop of wheat, and other grain can be raised in this State, at least, should the weather be anything like favorable from the present time until harvest. Corn is not a staple production in our State, therefore its loss will not seriously effect our farmers. The state of the weather for the past month, undoubtedly has done a great deal of damage to the growing crops of every kind but grass; but we are inclined to think a great deal more damage has been sustained in more southern regions, than in this State. From the general tone of our exchanges, we should judge that the principal crops throughout the North-West have been more or less damaged. In some quarters, an unusually rank growth of wheat, has been the consequence of the moist weather, and the heavy rains in many places have beaten down the young crop which is now rotting.—There has been little damage of this kind sustained in this State; but more particularly in latitudes further south. In other regions the spring crop is reported to be stunted from continuous cold rains, and a very meagre yield expected.

The reports which we have received for the past few days, seem to indicate a better feeling among the farmers of our State, while in other States the fears of heavy damage to the crops become daily more alarming, so much so, as to cause a continued advance in the Eastern markets, notwithstanding the late decline in the foreign markets, and the prospects of an abundant harvest throughout Europe. The consequence of poor crops, which appear now inevitable in many parts of the Western states, will be a material advance in prices of leading articles; and this movement has already began to manifest itself by the unexpected rise in the prices of breadstuffs in all the principal markets of the country. If the crops in this State sustain no further injury, then the likelihood is, that our farmers will have a fair harvest, though perhaps not quite so heavy a yield as in seasons past. This appears to be the general impression at the present time.

The weather for the past few days has been as favorable as the farmers could desire, and we trust that it may continue so. Whatever may be the state of the crops elsewhere, it is our opinion that the farmers of Wisconsin will not suffer much. What their products may lack in quantity, which it appears now will not be a great deal, is likely to be made up for, in the price which they will obtain. This is the way matters stand at present. All our speculations as to the future, however, may be incorrect. It is not well to be too hopeful, and the surest policy for our farmers to pursue, is to dispose of what grain they are holding over, while a living price can be obtained for it. They must wait the chances of the future market to realize upon their growing crops, but unquestionably the best way is now to to dispose of what they hold of last year's crop, and not risk, in hopes of doing better, the chances of a decline.

Viewing matters as they now exist, appearances portend that the coming harvest will be a tolerably prosperous one for the Wisconsin husbandman.

Printing of the Revised Statutes.

From the Madison *Argus & Democrat*, we learn that the Commissioners have awarded the contract for printing the Revised Statutes to W. B. Keen, a publisher of Chicago. The price at which he proposed to do it, together with the three bids nearest his, was as follows:

	1000 pages.	Each 100 pages.	Am't of 1200 pages
W. B. Keen,	$1 84	10	$1 54
George Webb,	1 00	20	1 38
Case & Lockwood,*	1 39	10	1 58
D. E. Hale,	1 33	14	1 61

The price of any of these bidders will cover but little beyond cost, though something handsome will be realized on the extra copies printed for private sale.

The public will learn from these bids of experienced publishers how cheaply even the best books are printed. A law book of the size of these statutes would cost $5 in a book store, if the law did not restrict the price. This, in the present case is fixed at $4. Yet a large profit is made as will be seen that it was proposed to do the work and deliver the books at Madison, for a little over a dollar and a half each.

The following are the bids for the printing:

New Vessels Longer than the Leviathan.—While public attention has been attracted so strongly by the unusual dimensions of the Leviathan, that the name of that vessel is in everybody's mouth, it happens singularly enough that two vessels of greater length and of more remarkable character, have been advancing to completion in Liverpool without the general public being even cognizant of their existence. These vessels are each seven hundred feet long.—They have been constructed by Messrs. Vernon & Son, for the Oriental Inland Steam Company, and are intended for the navigation of the Indian rivers. The purpose of their peculiar features of construction, is to enable a large cargo to be carried at a good rate of speed upon a light draught of water. The great rivers of India, though penetrating far into the interior, and though containing large volumes of water, are nevertheless shallow during the dry season.—The vessels navigating them must, therefore, float very light, and they must have strength enough not to suffer injury if they should get aground, and they must present such little resistance to the water as to be able to achieve a satisfactory rate of progress against the stream. All these indications are said to be admirably fulfilled in these vessels.

Waukesha County Court.—From the Waukesha County *Democrat*, we learn that the present session of the Circuit Court for Waukesha County commences on Monday, Judge McArthur on the Bench. The present court term, the *Democrat* says, will occupy two weeks.—There are several important cases to be disposed of. The *Democrat* thinks it wrong to call men from their work at this busy season of the year, and thinks that all necessary business could be transacted in the Spring and Fall, and thereby be the saving of a big Sheriff's bill, Juror's mileage and other attending expenses.

For the Sentinel.

A Sigh for our Decapitated Postmaster.

"Republics is ungrateful!" exclaims somebody. "To the victor belong the spoils," was the apothegm of the late lamented Marcy.—"Circumscribed is a very good word, Samivel, but circumwent is better," was the astute remark on syntax, by the elder Weller. "How false are all things here below," sings the hymn-book. "Lecompton is an outrage upon the people of Kansas," in substance, said the *News*; "I didn't write it," subsequently whined its editor.

These and other similar quotations floated through our equanimous mind, cruelly disturbing its calm placidity, as we read in the late telegraphic news, the fate of our present Postmaster. A sigh arose involuntarily—as boys sometimes whistle. "Alas!" we said, (our well coopered companion by our side, with a scarce perceptible frown, and the least possible asperity of voice asked "Where, my dear?" "We didn't say a lass, love," we mildly explained.) Another sigh escaped us.

Our sympathies were now fairly aroused by the graceless and bloodless decapitation of this governmental official. So with our usual promptness and characteristic generosity, we commenced at once to evolve schemes and projects, which should tend to the immediate mitigation of his sufferings. Various plans were considered, but only to be rejected. Our first inclination was to buy him a white cravat, and set him up to preach against that somewhat common, and very Democratic, yet still reprehensible practice of fibbing, (to use a charitable expression,) as we know of no one more conversant with the sin.—But when we reflected how his labors in that line for a year or so past had affected the subscription list of the *News*, we at once gave it up as in vain; for we feared his parishoners would no more listen to his persuasive oral eloquence, than they would read his editorials. Such is the perversity of human nature! Then after much mental labor, we produced a scheme, whereby an amelioration of the condition of a portion of our foreign citizens—more espiotally those of Ethiopian descent—could be effected. His former partiality for this class is well known, and it may now be a good opportunity for repentance, and a return to his "first love," after his protracted wanderings for the "flesh pots of Egypt."—Doubtless he would be welcomed back with a smile set in ivory.

Then the report of Gov. Denver's resignation occurred to us, and the propriety of proposing him as the fifth or sixth Governor of that troublesome Kansas, suggested itself at once. This idea pleased us, as the occupation seemed both fitting and proper. We engage to use all our influence at Washington, to secure this desirable end. The situation is, in more ways than one, fitted for him, and he for it. It needs and must have a man who is never troubled with what Charles Sumner calls "backbone." One who has a sovereign disdain for political integrity is indeed valued as a *rara avis*, and would be peculiarly appreciated. That foolish man, Gov. Walker, was not of this character, therefore he met with a proper end. A political gymnast, used to throwing all manners of summersets, and to sitting with equal pleasure on either side of the fence—one whose brains are so located that it makes no perceptible difference whether he is on his head or his heels—is admirably fitted by nature for this important position. Also one who so values his words that he will willingly eat them, if thrown back by his employers, would be duly appreciated; and all know how cheerfully he does this whenever there is the slightest occasion.

These three plans are all we have time at present to offer for the approval of the public.—We ask, and consequently expect no further remuneration for them than thanks, that customary reward for all really benevolent deeds. Our dear President, we fear, hardly appreciates the value of our Postmaster. That he has a value we have no doubt, as our belief in the doctrine of total depravity is slight; yet we have to acknowledge, that even our own estimation of him may be hardly high enough, as our acquaintance has been sadly interrupted by his residence in Washington for the past year or so—whither he has been called by the distracted state of the affairs of the nation. Still, that he was faithful no one can doubt, for the poet expressly says:—

> "Old dog Tray was *ever* faithful."

Surely "republics *is* ungrateful."
Milwaukee, June 17. Alas! Alas!

Two Horrible Murders in Minnesota.

A Woman Murdered by her Paramour.—From the St. Paul Times of Tuesday, we clip the following paragraphs:

A horrible murder was committed at or near Wabashaw, on Saturday last, by a butcher, whose name we have been unable to learn. His victim was a widow woman who lived in extreme indigent circumstances, with a family of three children depending upon her for support. It seems, from what we can learn, that a criminal intercourse had formerly existed between the mother and her murderer, and that subsequently an illegitimate offspring was the result. The case was presented at the proper tribunal, and the butcher was compelled to contribute to the support of the child. Stung with the shame thus fastened upon him, he has sought and obtained his revenge in the most cruel manner by the murder of the mother. He approached her miserable home under cover of the night, and placing the muzzle of his gun through a crevice in the door, fired the contents at his victim, and then fled to parts unknown. Suspicion was fastened upon him, from the fact that he was missing, and officers were at once started in pursuit. Whether he has been arrested or not, we have been unable to learn.

Another Deliberate Murder.—We learn that another murder took place on Friday last, about seventeen miles from Watertown, and near the Crow River. One James Holland was deliberately shot by his own brother-in-law, Thomas Gehan, while the former was assisting to settle a dispute, in which Gehan, and others had become involved in the settlement of a right to a claim.

James Holland, the victim, was a young man about eighteen years of age, and his remains were brought to this city and interred yesterday. He was in the act of walking away in order to avoid any further difficulty, when Gehan deliberately raised his gun and fired its contents into Holland's head, killing him almost instantly.

John Sullivan was one of the principals to the act, and we learn from Mr. McCarty that he was in this city yesterday. Gehan was arrested and placed in custody at Watertown, but it is feared he will escape from his present confinement. Holland's relatives live here, and his sudden and unfortunate end has cast a deep shadow over the household. Holland had no intention of wronging any one, and was in the act of leaving the premises peaceably, at the time he was shot down. It was truly a most cold blooded murder, and we hope will not passed by unnoticed.

Another Move by Mayor Tiemann's Police—Nineteen Obscene Book Stores and Medical Quacks Broken up.—Yesterday, Sergeant Birney made a descent upon a concern represented by the name "Fayette, Harper & Co.," who are in the obscene bookselling business. They now profess to represent the firms "Henry G. Barclay," "Henry L. G. Smith & Co., "Gillen & Co.," "James Ramiero," "Henry R. G. Barclay," and other fictitious firms. As they advertised to do all their business by letter, and positively refused to see anybody personally, it was difficult to get hold of the real persons engaged in the business. In fact, they were not to be found on any terms, and all that can be done is to notify the public that all letters addressed to such firms are useless, and will be stopped and sent to the Dead Letter Office. This, also, is the case with the firms subjoined: "Dr. R. Bland," "Madame Julia Melville," "H. C. Jerrold," "Dr. Duval," "Dr. A. B. Lawrence," "Dr. Samuel Spencer," "Dr. David Remb," "Prof. Roundout," "James G. Pentley," "Henry S. Lane," "Dr. J. Henry Warren, alias Sands of Life," "C. S. Burnett," "Dr. Uncas Brandt," "Emilie Vilette."—About 3,000 letters addressed to these firms were found in the office yesterday, and were forwarded to the Dead Letter Office, with their contents. From the Mayor of Philadelphia was received, by Mayor Tiemann, a letter, from which the following is an extract:

"This subject (bogus lotteries, quack medicines, &c.) has engaged the special attention of my detective officers for several days, and no efforts shall be spared to attain a result which, equally with yourself, I heartily desire.
ALEXANDER HENRY."

The New York Herald Deserting the Administration—Prospecting with Reference to 1860.

The New York *Herald* is out with the Administration, and it pronounces the Democratic party, so called, as broken into fragments and about used up. From an article in Tuesday's issue, we make the following extracts, which indicate the present tendency of that vascillating paper.

* * * * * *

The last Presidential election, from the divisions of the popular vote, established the conviction in the public mind that not only a majority, but an overwhelming majority of the people of the United States are opposed to the Democratic party. We have heretofore shown that since the year 1828 the Democratic has been a minority party, and that its successes in 1844, 1852, and 1856, resulted not from its own inherent strength, but from the dissensions and divisions and conflicting factions of the opposition.

We have shown that Mr. Buchanan—the only Democratic candidate that could have carried the day in 1856—was thus slipped in between two conflicting opposition factions which, if united, would have defeated him by a popular majority of nearly four hundred thousand votes. We may, therefore, safely assume that the only hope for the Democracy in 1860 is the continuance of these divisions in the opposition camps; but, on the other hand, the first, the indispensable, and yet the most difficult essential to the success of the opposition, is the concentration of their forces, North and South, upon a single candidate.

* * * * * * *

All the well meant and well directed endeavors of the President and his Cabinet to re-unite and harmonize the Democracy, have thus far been floated and frustrated by the selfish aspirants, demagogues and disorganizers of the party, in both houses of Congress. Thus, while on every important measure or movement of the administration, with scarcely an exception, the Democratic majority in the Senate, and in the House, has been reduced to a disorganized and impotent gang of fillibustering factionists, the apparently irreconcilable elements of the opposition have been united and harmonized to an extent which has astonished even themselves.

Thus, too, while the wise and well considered counsels of Mr. Buchanan and his Cabinet have been disregarded by the factious mutineers of Congress, upon this question, that question, and the other, it is most surprising that the opposition leaders have seized the advantages thus offered and are seeking to turn them to the best account. And so it is while the democracy in Congress, upon sectional and factious issues and upon their party squabbles over the spoils, have become demoralized and disorganized to an extent never known before, the prospect of the union and the triumph of the opposition in 1860 is correspondingly increased. In this connection the late financial revulsion, among its natural consequences, is just bringing to the surface a political issue upon the money question, which, if skillfully used by the opposition, may give them in 1860 a victory as decisive as that of 1840.

The slavery agitation may be considered as suspended for some time to come. Without the interposition of some new "aggression" of the "slave oligarchy," no disturbing breeze of sectional excitement can be raised upon slavery and the "slave power" in the approaching general campaign. But the financial revulsion has unfortunately operated seriously to diminish the receipts of the Treasury, while the legacies from his predecessors have quite as seriously increased the expenditures of Mr. Buchanan's administration.

We have thus the extraordinary spectacle of heavy issues of Treasury notes and loans to meet the current necessities of the government in time of peace. For all this Mr. Buchanan and his Cabinet are in no way responsible; but still the fact of these embarrassments and increased expenditures may be made the pivot of the Presidential election. It will be almost impossible, among four or five millions of voters, to separate the responsibility in the premises from the party and the administration in power.

In this view, and in view of the popular strength of the Opposition forces, when united, it would appear that nothing can prevent their success in 1860, provided they coalesce upon a common ticket and a common practical policy of "retrenchment and reform," North and South. To this end, however, none of their outstanding candidates will answer; for Seward, Banks, Chase, Hale, Crittenden, Bell, and even Fremont, would be encumbered with sectional or factious difficulties which could not be reconciled. But some new candidate, occupying a central and conservative position, geographically and politically, of democratic antecedents and possessed of admitted abilities—some such man, for example, as Cameron, of Pennsylvania—might be made the basis of a fusion which would not only settle the question in 1860, but the question of party ascendancy for many years to come.

Decidedly Wrong.—The New Assessment law contains the following provision:

Sec. 15. It shall be the duty of the Secretary of State to prepare and cause to be printed the necessary forms to carry into effect the provisions of this act, and, to transmit copies of such forms to the clerk of the board of supervisors of each of the counties in this State, immediately on the publication of this act; *and it shall be the duty of each of said clerks to cause to be printed for the use of the assessors of the several townships in his county, such number of said blank forms as may be necessary.*

That is all very plain, easily comprehended and not at all likely to be misconstrued. Yet, notwithstanding the law, and in direct violation of it, the Secretary of State has employed a Madison printer to print *all the blanks for the whole State*, instead of only the necessary forms, as the law expressly provides. This is a plain, open and direct steal on the part of Col. Jones, Secretary of State, from the country press. It is done in order to add to the already gorged and stuffed pockets of the State Printers at the expense of local presses.

We are surprised that Col. Jones should descend to such petty means to favor a particular home favorite, at the expense of his friends at large, and we are also surprised that Messrs. Calkins & Webb, proprietors of the *Argus and Democrat*, who are doing the job, should thus lend themselves to assist in violating the law, and to work an injury to the fraternity.

The whole thing goes to show that Madison *is* corrupt in every particular, and that the papers there are nothing more nor less than insatiable leeches, clinging with a death-like tenacity to the State Treasury, and sucking it till the last drop is gone.—*Washington Co. Democrat.*

Cooper's & Myers' Circus.—This institution visited this place on Thursday last, gave one exhibition and "busted." The proprietors of that concern are as big a set of rascals as ever escaped being hung. They have performed in several places in this State, usually pocketing the proceeds and leaving their bills unpaid.—They managed to continue this game until last Thursday, when, probably thinking things were getting a little too hot, and having a sufficient "pile" made, one of the firm decamped in the night time, taking with him nearly all the most valuable horses. All the help belonging to the concern were left here with empty pockets, having been cheated out of their wages. Some property was left behind, but it was not immediately available to supply the wants of men left penniless in a strange place.

There is a suspicious appearing circumstance connected with this affair. Forthwith comes forward a man with claims to the amount of nearly or quite its entire value.

The people of this place have acted nobly by the poor fellows left destitute on their hands by the rascality of Cooper & Meyers. They have contributed to keep from want, all who had not means to leave town. Too much credit cannot be given Messrs. Barber and Cushman, landlords of our two hotels, as well as many others of our citizens for their liberality and generous sympathy, and we believe it has not been lavished unworthily. Those left here are seemingly a worthy set of men, who left their wages in the hands of their employers, except barely enough to defray passing expenses. The band and the greater portion of the company are in this place awaiting the result of several attachments, on what property belonging to the circus was left to carry them away. We were victimized out of an advertising and printing bill, amounting to quite a little sum.—*Waukesha County Democrat.*

The Great Rain Storm at New York.—The *Tribune* says:

A great storm of rain commenced here between three and four o'clock on Friday afternoon and poured with little cessation till 11 o'clock on Saturday evening, more than thirty hours of steady, soaking rain. We think so much rain has not fallen within so short a time since the great flood of April 30, 1854. The city was better cleaned than it has been by the Street Inspector, for months, while the country in this vicinity is scoured, drenched, saturated. Much damage has been done by the washing of planted fields on sloping ground, leaching out of the richest juices of the soil, beating down grass, pelting the young leaves from the trees, &c. We trust little or no damage has been sustained by the embryo fruit, but it is not often that such a deluge is encountered at this season.

The Latest Good 'Un.—Why are hoops like an obstinate man? Because they often stand out about trifles.

Fiendish Rape Case.—We learn the following particulars of a most brutal and dastardly rape, perpetrated on a little girl only twelve years of age, on Sunday last, at a point near the Junction, on the Illinois Central Railroad. The victim is an adopted daughter of Mr. Nash, Cashier of the Illinois Central Railroad Freight Department. On Sunday afternoon last, two little boys, one a son and the other a hired boy of Mr. Nash, were sent out to watch and drive home the cattle. At tea time, the little sufferer, Jane Thomas, was sent out to tell the boys to come in to tea, and she was to stay there until they went back. Accordingly the boys went into the house and the girl was left alone. Presently come along three men, who spoke to her and asked her how to get across a slough, near which she was standing. She replied by directing them to go around. They were not satisfied, and they told her menacingly, that she knew where a boat lay by which they might cross it.—The girl became frightened and offered to show them where the boat was, and one of them followed her into the bushes, but not out of sight of his companions, and there forced her down and committed a most brutal rape upon the child, after which the three decamped. Shortly afterwards, the lads came from tea and found the girl in a dreadful condition and quite unconscious. It is thought that the little sufferer cannot survive the bestial attack. One of the wretches, but, alas, not the atrocious principal, has been arrested and lodged in our county jail. *Chicago Union.*

☞ Work has been resumed on the Sheboygan & Mississippi R. R. The means to proceed with, have been furnished by some Massachusetts men, now largely interested in the road.—The track will most certainly be laid to Glen Beulah—20 miles out from Sheboygan—the present summer.

There has been no road in the west, that has kept its credit in a good standing through the financial revulsion, as the Sheboygan Road.—The city and county bonds have never been sold for less than 85 cents on the dollar, we believe, and the contractor who takes a large share of his pay in the bonds of company, by his own capital, and the aid of his friends, has kept that kind of bonds up to 80 cents.—*Fond du Lac Commonwealth.*

CAUTION TO INVALIDS.—Dr. SAMUEL C. He has no other office nor any associate or partner at Buffalo, Chicago, Pittsburg or elsewhere, and has not had.* ☞ *Beware of all persons using his name, or pretending to have now, or have had, any professional connection with him. They are Impostors!!* Apply, personally or by letter, directly to himself at his Office, 714 Broadway, New York, where alone his treatment can be had. Remedies sent to any part of the country, and treatment conducted successfully by letter. EYE AND EAR.

DR. UNDERWOOD, formerly of the Eye and Ear Infirmary of Louisville, Ky., and more recently Physician and Surgeon to the Eye and Ear Infirmary of Columbus, Ohio, and author of a "New System of Treating diseases of the Eye and Ear, without the Use of the Knife," would announce his arrival in the city of Milwaukee, Wis., and has taken Rooms at the Corner of East Water and Wisconsin streets, over Van Cott's Jewelry Store. Where he will remain a few weeks, in order to afford those afflicted with Diseases of the Eye and Ear, an opportunity of being treated by a system which is entirely new, perfectly safe, and has never been known to fail in effecting permanent cures, especially in all cases of Opthalmia, (or inflamation of the eye,) either Acute or Chronic, whether Catarrhal, Purulent, Scrofulous or Rheumatic. It will also remove Opacities of the Cornea, whether of a nebulous or albuginous character, or any other external scum, film or extraneous substance, from the Eye. This new mode of Treatment has never failed of curing Pterigium, Staphyloma and Amaurosis, and has even succeeded in removing Cataract from the Eye, whether Capsular or Lenticular, in a great majority of cases, without the use of the knife or needle.

He has been equally successful in the treatment of Diseases of the Ear, with his new system. For skill and success in his profession, the Dr. directs those interested to the following well known gentlemen:

Of Peoria, Ill.—Judge Powell, Rev. R. Johnston, of the First Presbyterian Church, and Mr. McClellan. Of Columbus, Ohio.—Capt. C. M. Lilley, Judge Rankin, Capt. Wm. Willis, Rev. Dr. Helburd, of the Presbyterian Church. And the following members of the Ohio Legislature—The Hon. Dr. Flowers, of Perry county; Hon. Patrick Thompson, of Coshocton county; Hon J A. Bell, of Medina county; Hon. Mr. Johnson, of Hocking, all of whom are personally acquainted with the Doctor's success in practice. No charge made for an examination and an opinion. Patients at a distance can have medicine sent them, by giving a minute description of their case.

Private and Confidential Medical Advice.

AT THE MILWAUKEE Venerian Hospital, established for the cure of Syphilis, Semina Weakness, and the infirmities of youth and maturity, by Dr. Barnes.

Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 12 Wisconsin Street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhoea, Gleet, Stricture, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain in the head or bones, and all Mercurial Affections, and all impurities of the Blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.

Dr. B. makes no charge for short consultations.—Those requiring much advice should enclose a small fee sufficient to compensate for the time required to write the answer.

IMPORTANT TO GENTLEMEN.

MRS. SHANKS, at 325 East Water Street, Milwaukee, Wis., begs leave to inform the Gentlemen of this city, and particularly those who take pleasure in wearing well got up linen, that, in addition to the manufacture of SHIRT COLLARS, DRAWERS, &c., &c., which she carries on now more satisfactory to her customers than any establishment in the North-West, she is prepared to take in WASHING of every description. Having enlarged her premises, and being in possession of a Patent Glossing Press, for Shirts, Collars, &c., also all modern implements and ingredients requisite in her line of business, she feels confident of giving full satisfaction, and promises to do all work cheaper than any establishment this side of New York. Linen got up at the above place will, in appearance, be fully equal to new goods.—Tailors and Clothing merchants will do well to give us a call, as they can recommend our work to their customers at large. Country orders promptly attended to. We sell Shirts from seven shillings to five dollars apiece. Having proved our experience as Proprietress of the New York Shirt Factory, in Baltimore, for the last nine years, we have now come to make a second commencement in the West, and defy the world for better fitting Shirts, Drawers, Dressing Gowns, or anything in our line.

FAMILY HORSE FOR SALE! I have a horse that I can highly recommend; probably one of the best family horses in this city. He is sound, quiet and kind. Any lady or child can drive him. Any one wanting a safe horse for their family may rely upon what I say. If, upon trial, the horse does not prove to be whole, I say he can be returned and I will refund the money. je CALEB WALL.

TO the Public in general. I am now opening another Stock of Dry Goods of some Broken Merchant, (poor fellow, I pity him,) which is, and has been, well selected. Many of them are Staple Goods; many, and the most of them, are Fancy Goods, which every family want from day to day. All the said goods I will have open in a few days, and will sell them to all our customers at half price. Ladies will please call and see the goods and see if there is not something they want. Peter Kiemb and Otto Hoyer will wait upon you with all the patience of Job. I will occasionally wait on you, but I must confess, like an honest man, that I have no patience in selling goods at retail. The Goods are all beautiful and good, and every family wants them, and they can get them at half price.

I HAVE in my charge Five Hundred Acres of choicest School Land, which the owner wants to exchange for Household Furniture. The land has all been well selected, and is valued by those who are well acquainted with it, at five dollars per acre. Some of the land is near a very large saw mill. The party would like very much to purchase all the furniture of someone who is giving up housekeeping. It is a good investment for some one who is giving up housekeeping. School Lands are going to be more valuable then ever, and are now worth holding. Any one wishing to make the exchange, can call at my Auction Room. The party would have no objection to take New Furniture, provided it can be had at a fair price.

G. SIMMONDS,
SOLE PROPRIETOR AND MANUFACTURER OF
PURE OHIO
Catawba Brandy.

THIS Brandy has been manufactured for several years from the pure juice of the Catawba Grape, thus affording additional evidence, of the progress of American enterprise and industry, and of our ability to produce articles at home, equal to those made by any other nation.

The Ohio Catawba Brandy, not only equals but excels the best Imported Brandies, in purity and flavor. It is in fact the best Brandy known. This statement is fully corroborated by the certificates of our most distinguished analytical chemists.

The want of pure brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded a great public good. The Catawba Brandy posses all the good qualities claimed for the best imported liquors, and is of perfect purity, and superior flavor, and a sovereign and sure remedy for

TRUE AND LASTING WORDS.

JAMES RUSSELL LOWELL, of Cambridge, Mass., the reputed Editor of the "Atlantic Monthly," is a genuine poet. He has written much which the world "will not willingly let die," but perhaps nothing better than the following lines at the end of one of his poems—which have passed into the hearts, and are often upon the lips of "the people."

> It may be glorious to write
> Thoughts that shall glad the two or three
> High souls, like those far stars that come in sight
> Once in a century;—
>
> But better far it is to speak
> One simple word, which now and then
> Shall waken their free nature in the weak
> And friendless sons of men;
>
> To write some earnest verse or line,
> Which, seeking not the praise of art,
> Shall make a clearer faith and manhood shine
> In the untutored heart.
>
> He who doth this, in verse or prose,
> May be forgotten in his day,
> But surely shall be crowned at last with those
> Who live and speak for aye.

Ex-President Fillmore's Present for Sale.

Persons who are fond of making presents to public servants, might have received an instructive lesson, on Saturday, at Bleeker's auction rooms. A carriage of elaborate workmanship, and harness to match, was offered for sale, and one of its great attractions was, that it had belonged to ex-President Fillmore. It had been presented to him shortly after he came into the Presidency, by some of his New York friends, and on leaving for Europe, after failing to get a nomination for the Presidency, he sold the carriage to a lady, and put the money into a service of plate, which cost less to keep, and at all times would be convertible into cash.

The lady having derived all the comfort from the carriage which she could afford to indulge herself with, determined to sell, as Mr. Fillmore did before her, and accordingly sent to Mr. Bleecker. The carriage was sold to Mr. Joyce, for $391. From a glimpse we had of the equipage, we incline to think very little was allowed by the buyer on account of the odor of nationality which hung around it. Had it never been used by any but the commoner sort of people, it would have scarcely brought less. It is but fair to Mr. Fillmore, however, to say that there was no reason to suppose that it would have brought any more if it had never belonged to him.—*N. Y. Post.*

HOW A FRENCH EDITOR WAS CONVERTED TO BONAPARTEISM.—The story of the conversion of Mons. Veuillot, editor of the Universe, to Bonapartist sentiments, is as curious as that of his "conversion" to religion. The Emperor sent for him during the trial of Bernard, and told him that to him alone would he confide the honor of France, and the condemnation of the existing laws of England. Veuillot hesitated—he did not like the aspect of affairs, which threatened the loss of caste among his own people. When the Emperor, with the tact which no man like himself possesses, retired for a moment, and returned with the Empress. "My love," said he, "this is Monsieur Veuillot, the **greatest** defender of the Catholic interests in our day—the most intrepid and persevering opposer of the inroads of Protestantism;—the most talented writer in our defence now existing amongst us." The Empress bowed gracefully; her eyes lighted up with pleasure at beholding the pillar of Catholicism. She requested the pleasure of pressing the hand which had written so much in its defence. She looked at him with the admiration she perhaps really felt—and Vieullot was lost to the Bourbons, to Frohsdorf, and to Parma for ever and ever. The story is perfectly true, and Veuillot tells it himself with inimitable *naiviete*, defying every man he meets of whatever age, talents, or opinions, to deny that he would have done the same under similar circumstances.

IMPORTANT TO THE PUBLIC.

THE SUBSCRIBER would respectfully solicit the attention of the people of this community to a new Mastic

Roofing Compound,

Patented March 3d, 1857, by C. R. MILKS, that is what it purports to be, viz:

FIRE AND WATER PROOF
ROOFING,

For proof of which he refers to a long and respectable list of certificates, a few of which are given below, and plenty of others to be seen at the office of the subscriber. Also would refer to men who have tested it in more than one hundred of the principal cities and towns in New York and Massachusetts. and close application to the business—experimenting with from one to two hundred different compounds in a year—he has no hesitation in taking the broad ground that there is not even a *possibility* that any of them (save the above) will stand the

READ! READ!

Some Testimony not bought, and no names inserted without the knowledge and cheerful consent of the parties.

Newburgh, April 19th, 1855.

St. John B. Sanborn, Esq.,

Dear Sir:—In reply to your request, asking my opinion with regard to the Composition Roofing patented by C. R. Milks, I have to state that I have examined the matter carefully, having watched its application in various places and in some very difficult ones, which it has been impossible to stop the leakage of with any other known compound. I have no hesitation in pronouncing, so far as its Water Proof qualities are concerned, essentially the thing, and as to its Fire Proof qualities, having examined the roofs of Homer Ramsdell, Esq., I find the roof boards completely charred through, and at the same time the Composition remains entirely untouched by the fire, although constantly covered with falling brands and cinders. I therefore consider it essentially both a Fire and Water Proof substance, and having had considerable experience with other Compositions for Roofing purposes, (particularly with West's patent,) I have no hesitation in pronouncing it the very best thing extant, both as a Fire and Water Proof Composition for Roofing purposes. H. F. Adams.

Having taken an interest in the subject of Mastic Roofing, and knowing that the preparations hitherto used have failed to stand the winters of this climate, we were induced in September last to apply, as an experiment, some of C. R. Milks' Mastic Roofing on a Tin roof adjoining our office, (said roof being much exposed to the action of the weather, and also the rain and snow from another roof,) we find at this date said roofing in the most perfect order, and believe the great question of how does it stand the "winter" is settled, and that C. R. Milks' Roofing must prevail over all other Mastic Roofing in use. [illegible] & PARKER,

AYER'S
CHERRY PECTORAL!

FOR THE RAPID CURE OF
Coughs, Colds and Hoarseness.

SPRINGFIELD, Mass., Dec. 20th, 1855.

Dr. J. C. AYER—I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your *Pectoral* myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, Miss., Feb. 7, 1856.

BROTHER AYER:—I will cheerfully certify your *Pectoral* is the best remedy we possess for the cure of whooping cough, croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., Monterey, Ia., writes 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your *Pectoral* by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR:—Your *Cherry Pectoral* is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years.
HENRY L. PARKS, Merchant.

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the *Cherry Pectoral* affords relief and comfort.

Consumptives do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

SANFORD'S LIVER INVIGORATOR!

ONE OF THE BEST PURGATIVE and Liver Medicines now before the public, namely DR. SANFORD'S INVIGORATOR, or LIVER REMEDY that acts as a *Cathartic*, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject the morbid matter, then on the stomach and bowels, to carry off the matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and when taken in moderate doses will strengthen and build it up with unusual rapidity.

DR. SANFORD'S INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums. Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their prescriptions until used in the form of the *Invigorator*, which met with such unprecedented success as to induce the proprietor to offer it as a family medicine tried and known in its effects. It has rarely ever failed to cure Liver Complaints in their worst forms.

INDIGESTION being caused by a deranged Liver is cured when the Liver is excited to action.

JAUNDICE is caused by the improper action of the Liver, and as a proof that the Invigorator relieves this disease, let any one troubled with Jaundice take the Invigorator regularly one week, and their skin will begin to assume its original color.

COSTIVENESS can be permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the bowels are left in a healthy and active state, and work as regularly as clock work.

SICK HEADACHE is very soon relieved by taking a double dose of the Invigorator, which corrects all acidity and sourness of the stomach.

For an overloaded stomach it has no equal, as it relieves all oppressive or uneasy feeling after eating heartily. For a *family medicine* generally, all who use it speak in the highest terms.

DR. SANFORD'S INVIGORATOR came to us recommended to us a cure for Liver Complaints, and all diseases arising from a diseased Liver. The testimonials of so many of our Physicians in its favor induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now what we want to say to all our readers is, if *Liver Complaint* or *Dyspepsia* trouble you, do not fail to try this the greatest remedy in the world.—*State Fact.*

We take infinite pleasure in recommending this medicine as a preventative for FEVER and AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

There has never been tried in our family a remedy which has met with such unbounded success in the cure of diseases incident to children, as DR. SANFORD'S INVIGORATOR; nor is it alone for diseases of children that we use it; for it acts as a Cathartic so mildly and gently, and seems to renovate the system so thoroughly that we think we are doing a service to all in advising them, when they need medicine, to try this remedy. There are cases that have come under our notice where great benefit has been received in diseases of the Liver, Stomach and Bowels, where all other remedies failed to give relief. It has become so useful in our family that we will not be without it.—*Jacksonville, Ala. Republican.*

TO THE AFFLICTED.

DR. TILTON, having returned from his Southern tour, has taken rooms at the Massasoit House, Chicago, where he will now remain permanently.—Those who suffer from Consumption, Indigestion, Nervous Debility or Weakness, will do well to call on him and have his advice. His

GREAT EAST INDIA REMEDIES,

Which he discovered in Calcutta after many years of research and labor, have become so thoroughly known and appreciated, than an attempt has been made by a few avaricious parties, with the expectations of gain, here and elsewhere, to counterfeit it; therefore, Dr. Tilton cautions the public not to buy this worthless drug as the genuine, no matter how represented, as no one but himself in the United States has possession of the original receipt. Dr. Tilton may be consulted at Room 8, Massasoit House, Chicago, where he last year succeeded in successfully curing hundreds of terrible cases of Consumption. Nervous Debility and Indigestion, Asthmas, Bronchitis, Coughs and Colds. The Cannabis Indica and Lung Balsam, are the greatest blessings of the age. Give him a call, or send for a bottle of medicine which will cost you two dollars. Address,
DR. TILTON,
Box 1109, Chicago, Ill.

N. B.—I have not, nor never had, any connexion whatever with a person calling himself Dr. Gilbert, on State Street, Chicago. I have no agent or successor here, or elsewhere. ap28g482d1mJJG

COMMERCIAL & FINANCIAL.

OFFICE OF THE DAILY SENTINEL,
Thursday Evening, June 17, 1858.

MONEY MATTERS.—The money market remains as noted yesterday, save that exchange is a little easier, and in a trifle better demand. The Banks are discounting lightly at 10 per cent, the legal rate. In business generally we note rather an improvement, consequent on the brisk grain trade, and fine weather. Exchange on New York more plenty and 1 selling at par cent premium. Not much doing amongst the Note brokers, and rates unchanged, 1½ to 2½ per cent per month. Gold easier at 1 per cent.

OUR MARKETS.

RECEIVED BY MIL. & MISS. R. R.—23,242 bus wheat, 256 bbls flour, 342 bus barley, 60 bus potatoes, 157 bus oats, 58 bus rye, 545 lbs butter, 400 lbs hides, 1,005 lbs sundries.

LA CROSSE & MIL. R. R., June 16th—6,375 bus wheat, 317 bbls flour, 115 sacks do. 2,240 bus oats, 81 bus barley, 69 bus potatoes, 14 bbls eggs, 4,269 lbs sundries, 2,050 lbs hides, 61 doz pails, 700 lbs butter, 1½ cords hoop-poles.

M. W. & B. V. R. R.—4,241 bus wheat, 1,532 bus oats, 46 bus corn, 80 bbls flour, 66 lbs hides, 254 lbs butter.

MIL. & HOR'N R. R.—1,562 bus wheat, 1,581 bus oats, 67 bbls flour, 661 lbs butter.

The produce market to-day has been active and firm. Receipts of wheat larger than for any other day thus far this season, footing up in the aggregate about 55,000 bus. Shipments are also large. The wheat market opened firm this morning, and we note a continued buoyancy throughout the day, with more numerous transactions at a higher figure than yesterday. The principal transactions, however, were at yesterday's quotations. Flour is held at an advance, though sales are limited. Oats are in better request, and prices rather looking upward. The telegraph this evening reports the N. Y. wheat market scarcely so firm to-day, and flour less active and lower. We quote to-day;

WHEAT—Market lively, with a brisk demand for choice No. 1 and extra club, at 74 to 75½c. We note sales to-day of 9,000 bush choice No. 1 at 75c f. o. b., also to store and mill, 800 bags at 75½c, 700 bags at 75c, extra club; 2,100 bags No. 1 and extra club mixed together at 74½c; 4,095 bags good No. 1 at 74c; 800 do at 73c. Small lots of win. wheat sold at prices ranging from 75 to 80c for red, and 88 to 90 for white. Receipts of winter comparatively light. Besides the platform sales considerable quantities were bought through the streets, mostly at these rates, though in some cases higher prices were obtained for very choice samples in small lots.

FLOUR—Holders firm at an advance. Transactions limited at $3 50a3 75 for spring extras.

FREIGHTS—The Sch Indus takes wheat to Buffalo at 4c, and the Sch. Geo Steele loads with wheat for Oswego on owners account. There are not many grain vessels here at present.

OATS—In good shipping demand at 30a31c. We note sales to-day of 160, 300, 400, 800, in all 1,100 bags at 31c. Receipts light and a more active enquiry.

RYE—Quiet, sales of 100 bags at 51c. We heard of sales of several other small lots at the same price.

BARLEY—Quiet at 30a35c. No sales reported.

CORN—Firm at 48a47c for good dry shelled lots.

POTATOES—Plenty and rather dull at 28 25c for ordinary to good lots. Retailing at a trifling advance on these figures.

BUTTER—In large supply and nominal at 10c. We heard of no sales of any consequence to-day.

HIDES—Receipts light, with an active request at 6c for green, 7a7½ for green salted, and 12a14c for dry. Sales to-day of 400 lbs dry at 14c, and several small lots of green salted at 7½c.

PELTS—In good request, at 12½ for shearlings and $1a1 25 for full wool pelts.

WOOL—A large dealer here tells us that 20a30c is the range which he has paid thus far this season for coarse and fine washed wool. The coarsest qualities well washed will bring 20c per lb. Small sale of a nice article of fine wool at 30c.

MEDICAL.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,

FROM

The worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth or stomach.

Three to five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, MASS.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to you husband and household.

In the more advanced stages of

CANKER

extends to the stomach, causing

DYSPEPSIA,

which is nothing but canker on the stomach; then to the intestines and

KIDNEYS,

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also, that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.
